IT Skills

Experience in:

- | | |
|--------------------------------|--|
| ● Linux | ● Python - PyTorch, Matplotlib, Flask, |
| ● Docker | Pandas |
| ● Adobe Suite | ● R - R markdown |
| ● Git | ● PHP - TWIG |
| ● Drupal | ● Java |
| ● AWS - EC2, Lambda, Sagemaker | ● CSS |

Relevant work experience

-
- Junior Developer at Webcurl Ltd in Kidlington Oxfordshire, August 2022-August 2023
 - Developed tailored websites and systems for local councils, including in the latter part of my time there, the company website (<https://www.webcurl.co.uk/>). These sites need special consideration in terms of accessibility as councils require high standards in this aspect.
 - First-line support for the client base via a ticketing system, phone and email. Regularly handling high-importance issues, and elevating when necessary.

Prior work experience

- Assistant at Haygarth Surgery in Hay-On-Wye -Summer 2019,
 - In this role, I helped the admin team with their daily tasks along with helping record records. This allowed me to improve my teamwork and communication skills as in that environment they are crucial.
- Cashier at Maplin Hereford, March 2018-June 2018,
 - This role allowed me to have some experience working with the public as well as increase my technical knowledge along with my overall people skills.

Soft Skills

- | | |
|---------------------------------------|--------------------------------|
| • Problem-solving | • Understanding complex issues |
| • Teamwork | • Data storytelling |
| • Communication | • Confident Presenter |
| • Clean driving license and transport | • Understanding of data ethics |

Interests

Within my personal life, I enjoy playing Guitar and listening to music. Games have been a source of constant enjoyment throughout my life, from playing games as a child to building custom computers and setups in my teenage years. Currently building mechanical keyboards has been a fulfilling hobby. Marine biology is another love of mine, with aquariums and reptiles being a large part of my childhood and teenage years, they have provided me with a passion for conservation and a great appreciation for natural beauty.
